Corporate Structure

JW GROUP has accumulated decades of experience and has gradually grown into a group with five subsidiary companies responsible for production, manufacturing, and sales. The turnover in 2022 was 56,860 million RMB.

Juneway Electronics Technology

Suzhou Ever-Island Electronics

Suzhou Walter Electronic
Suzhou Walter Electronic Dongguan Branch
Suzhou Walter Electronic Shenzhen Branch
Hong Kong Walter Electronic Technology Taiwan Branch

Yokohama Electronic Devices (Japan)

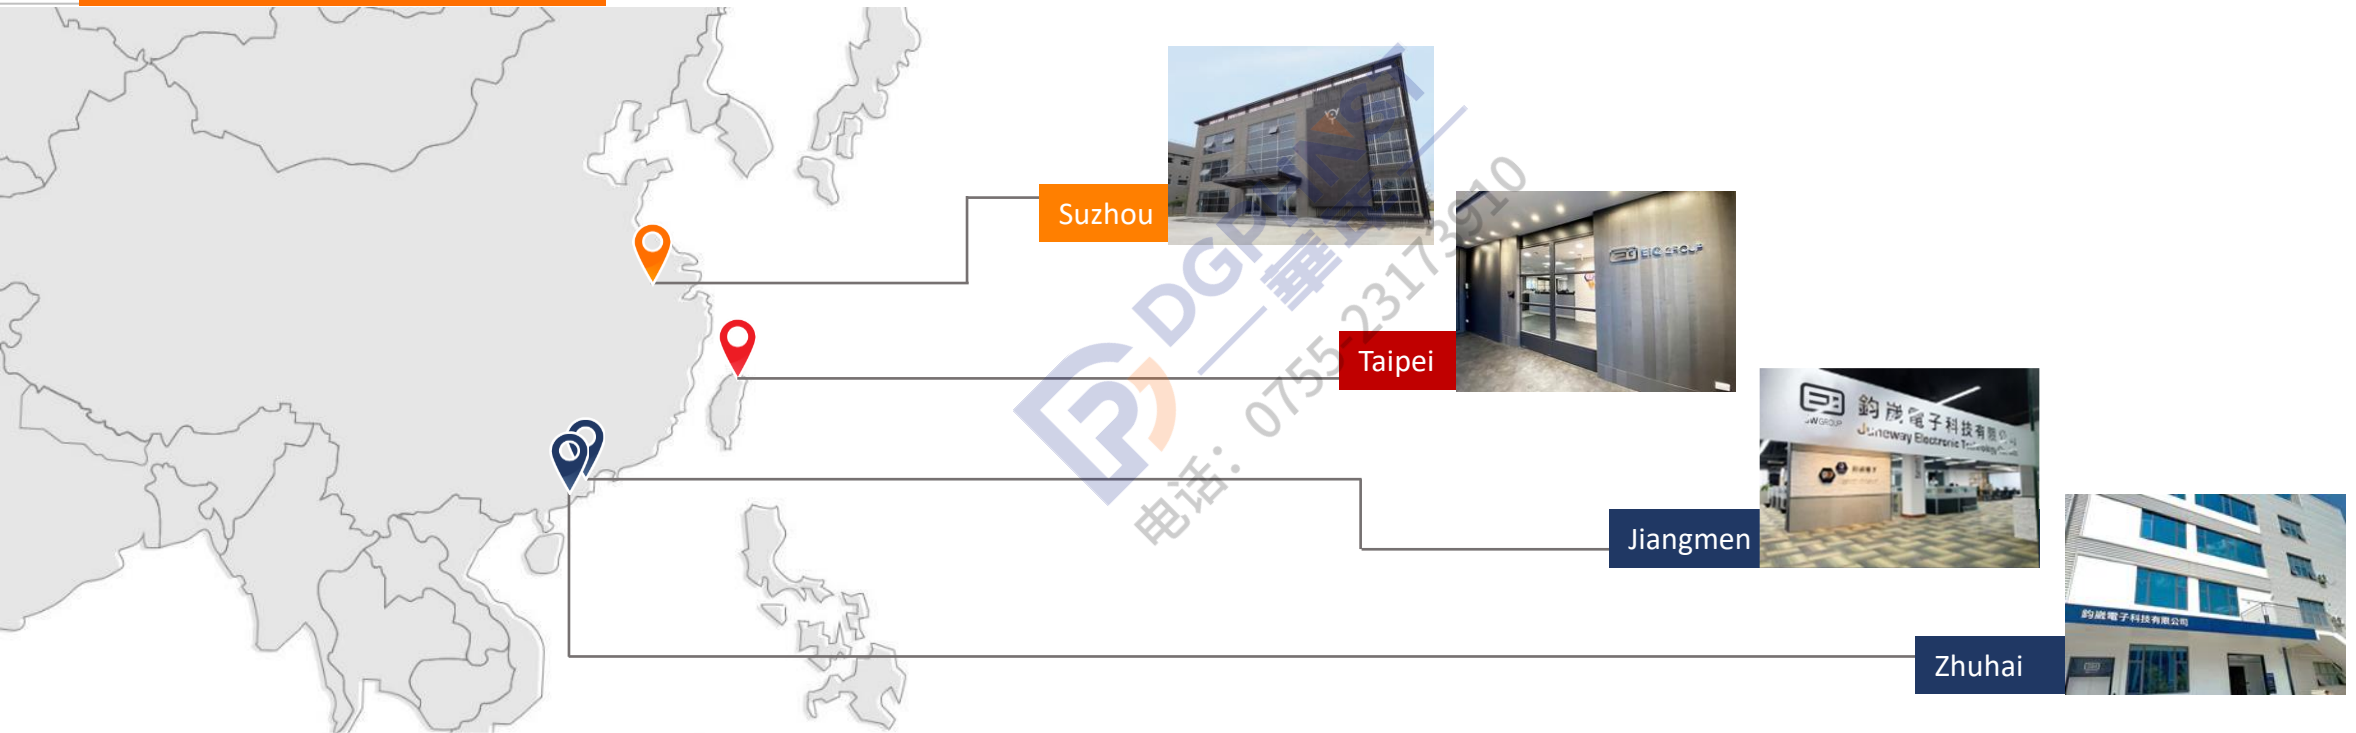

Thin Film Technology (USA)
Thin Film Technology Taiwan Branch

Milestones

-
- 1968** Walter Electronic was established in Taiwan.
 - 2000** Established Suzhou Walter Electronic.
 - 2003** Released Thermal Cutoff series fuses.
 - 2007** Released Chip series fuses and Current Sensing Resistors.
 - 2011** Released "Wire in Air", a high performance, high current and high surge resistant Brick fuses.
 - 2015** Released Power fuses series.
 - 2016** Jiangmen Juneway Electronics was accredited as a Mainland China high-tech enterprise.
 - 2018** Jiangmen Juneway Electronics received IATF 16949 certification
 - 2019** Suzhou Walter Electronic accredited as a Mainland China High-Tech Enterprise.
Suzhou Walter Electronic received IATF 16949 certification and IECQ QC080000 certification.
 - 2021** Current sensing resistors monthly capacity reached 360 million pcs.
Subminiature fuses monthly capacity reached 150 million pcs.
Established Juneway Electronics Zhuhai Branch.
 - 2022** Released high power Current Sensing Shunt Resistors.
Planning of Suzhou Walter Electronic second phase project.

Company Structure

Company	Location	Capitalization	Size	Employee	Product				Safety Certifications				
					CSR	Dip Fuse	Brick / SMD Fuse	Power Fuse	ISO 9001	ISO 14001	IATF 16949	IECQ QC080000	
Taiwan	Taiwan / Taipei	TWD 5 million	800 m ²	50									
Suzhou	Jiangsu / Suzhou	RMB 30.36 million	28,000 m ²	380		✓	✓	✓	✓	✓	✓	✓	✓
Jiangmen	Guangdong / Jiangmen	RMB 105.8 million	10,000 m ²	400	✓		✓		✓	✓	✓		
Zhuhai	Guangdong / Zhuhai	Combined with Jiangmen plant	4,800 m ²	110	✓		✓		✓	✓			

Safety Certifications

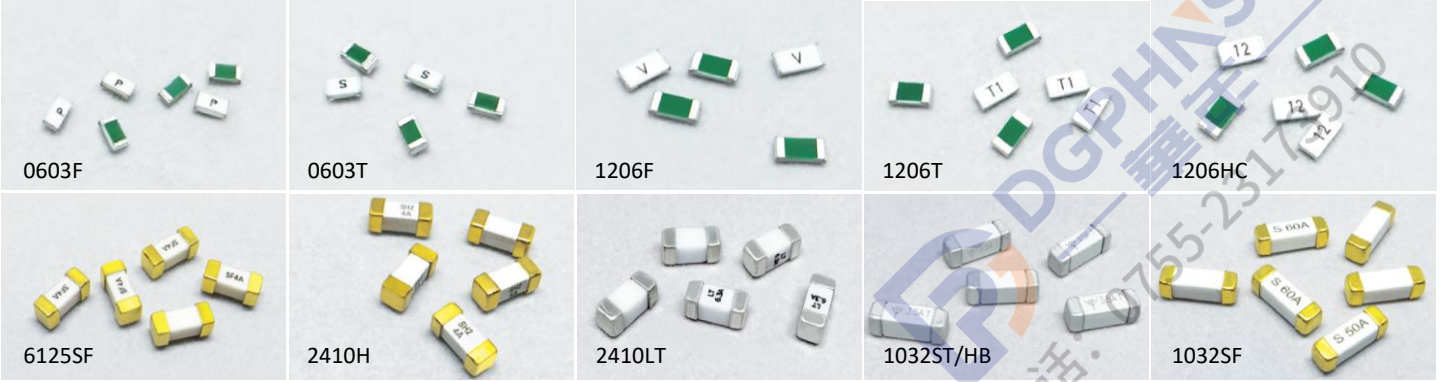

Walter's primary objective is to make high-quality products.

This goal led us to obtain agency certifications from IECQ QC080000 , ISO9001 , ISO14001 and IATF 16949.

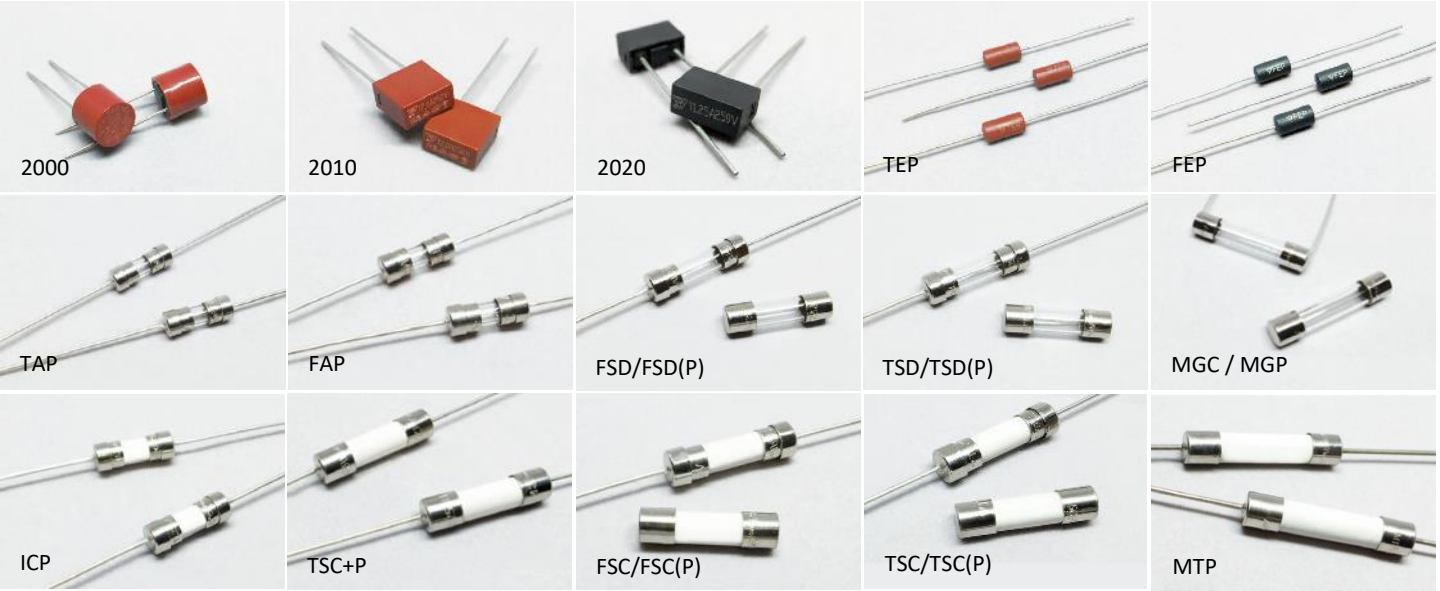

Our company became the first Taiwanese fuse manufacturer to be simultaneously certified by 8 international safety certification agencies: UK BSI, USA UL, Sweden SEMKO, Canada CSA, Japan PSE, Germany VDE&TUV, Authoritative China CCC and Korea KC.

Our Products

Surface Mount Fuses

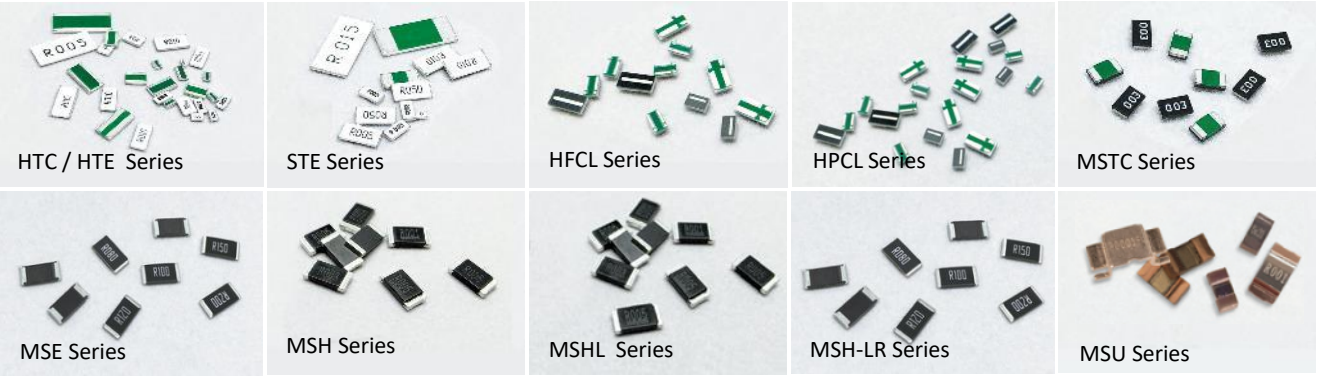

Current Fuses

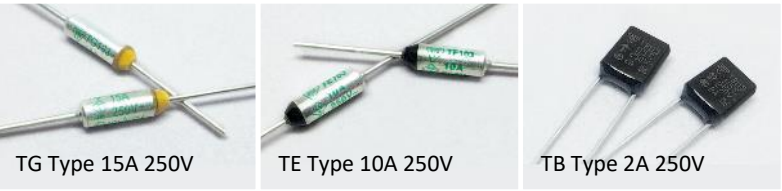

Our Products

Power Fuses

Current Sensing Resistors
& Shunt Resistors

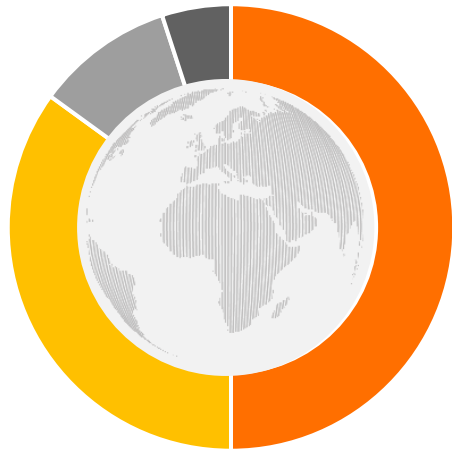

Thermal Fuses

Marketing Regions

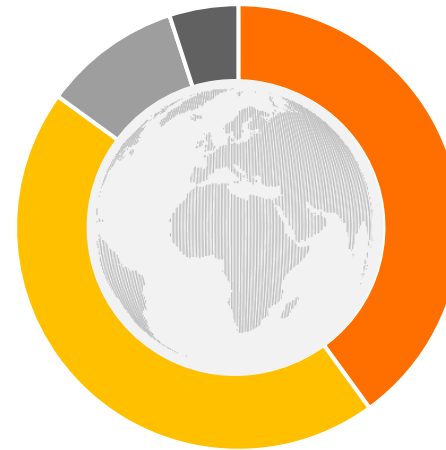

Walter Electronic has over the years of manufacturing experience,
With over the years clients from Mainland China and around the world.
Our persistence in delivering high efficiency along with a sincere
attitude is what makes a trustworthy partner.

Technology

Delivery

Delivery Capability

Delivery lead-time has always been Walter's greatest strength in the field of fuse manufacturing. We possess the ability to craft our own production machineries in-house without the need to outsource.

Therefore, Walter's production line always has extra production capacity availability, so we can always accommodate our client's requests.

Technical Support

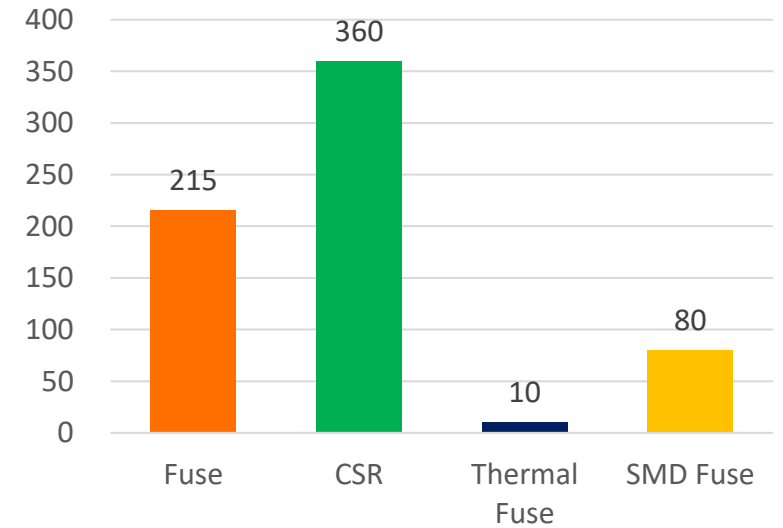

Walter's technical support team is always available to serve our clients, from product selection to research and design, until satisfaction is met.

Customer Complaint

Will release initial analysis report within 3 working days upon receiving NG sample, then, provide final 8D report within 7 working days.

UNIT: MPCS / MONTH

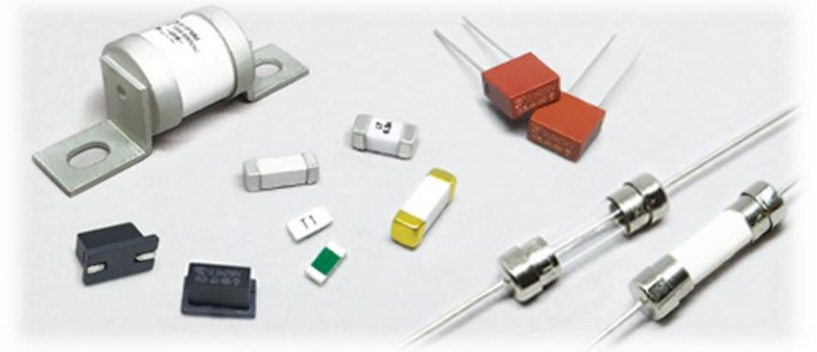

Customers

In the last few decades, Walter earned a trustworthy reputation and loyalty from our valued customers because of our persistence to deliver reliable services.

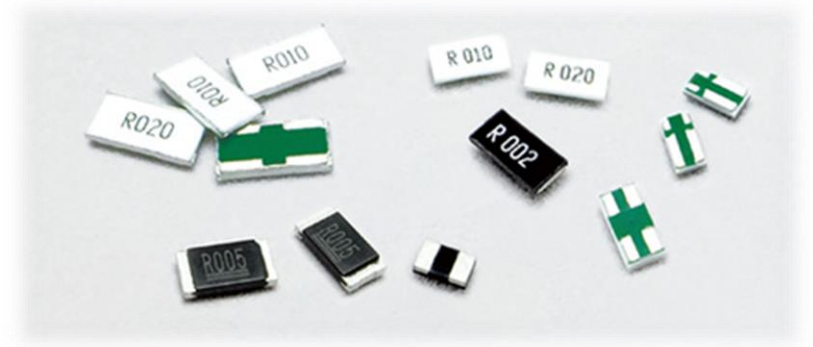

Here are some of the clients we serve :

Customer References (Fuses)

Computer Peripherals & Power Supply		Home Appliances	Industrial, New Energy, & Automotive Industries	Security, Lighting & Other Industries
Delta	Flextronics	Gree	BYD	Hikvision
Liteon	Solum	Midea	CCT	Dahua
Chicony	TDK	Hisense	Omron	Philips
Acbel	AIRMATE	Skyworth	TTI	GE
FSP	T&W	AUX	SIL	Panasonic
Foxconn	Megmeet	Konka	Pylon	Toshiba
Leader	Mean Well	Panasonic	Riello ups (RPS)	Opple
Phihong	Tenpao	Sharp	Voltronic	Topstar
Huntkey	TP-Link	Hitachi	Poweramp	Yankon
MOSO	AoHai	Daikin		Tospo
Artesyn	Luxshare-ict	CVTE		Yamaha
TPV	Salcom	Whirlpool		Apollo
Qisda		Electrolux		

Customers

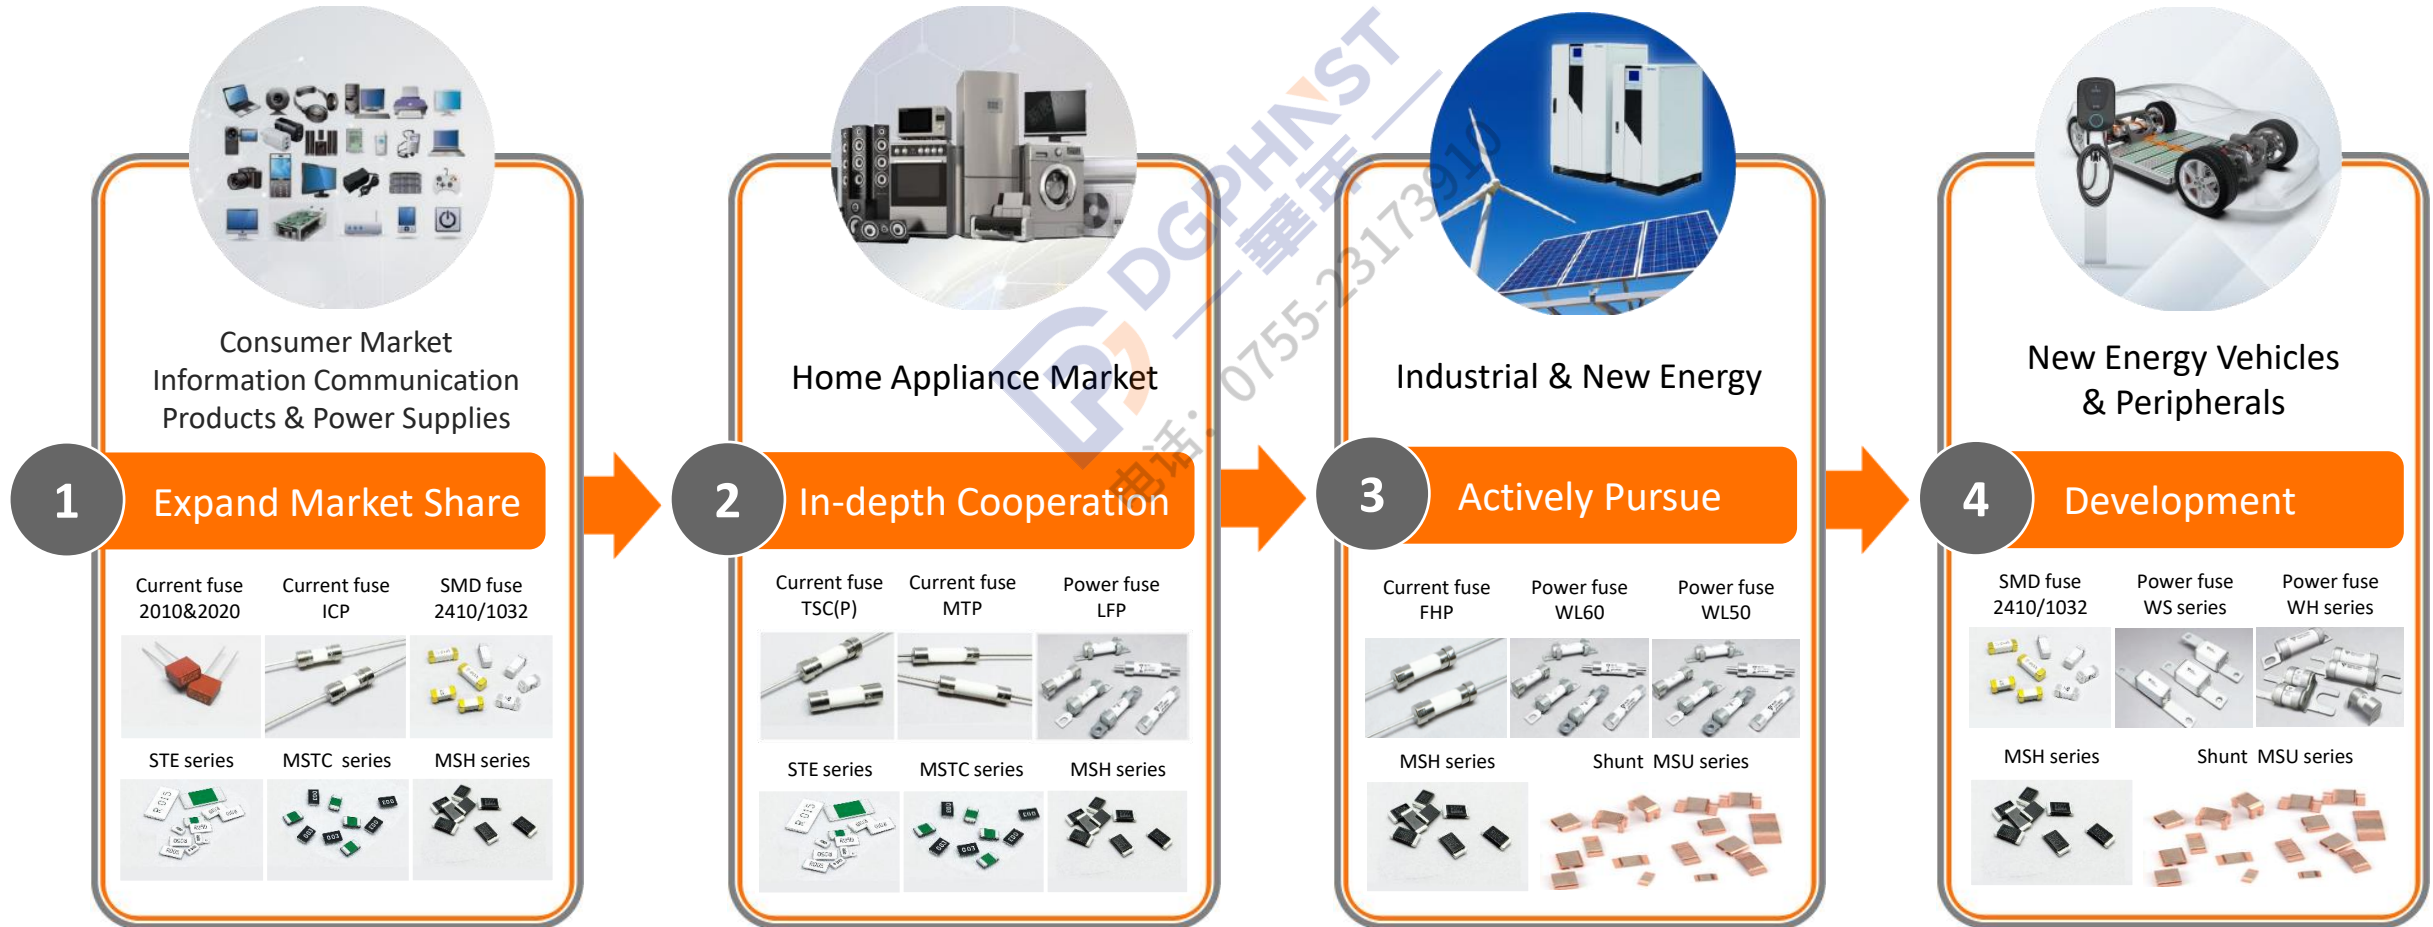

Customer References (Current Sensing Resistors)

Computer and Mobile Phone PCB Boards	Battery	Power Supply	Others
Xiaomi OPPO VIVO Dell LCFC Clevo Getac Wingtech	ATL NVT Tianpower ZMI SCUD DBK Highpower SDI Nintendo Amazon Blueway BYD COSMX Sunwoda	Delta Chicony FSP Leader Tenpao SIL Huntkey Flextronics Mean Well AoHai Solum Chen Yang Luxshare-ict Salcom	Gree (Air con) AUX (Air con) Midea (Air con) Hisense (Air con) TCL (Air con) CVTE Dreame Huan Zheng

* The above represent customers served through the Walter brand and does not include customer from TFT and YED brands.

Market Layout

In the future, various current components such as shunt resistor modules will be gradually introduced to meet the needs of more industrial new energy and new energy vehicle.

We appreciate your time
