

Walter Electronic Company Profile

The Name You Always Trust 就是可以信賴

www.walterfuse.com

Corporate Structure

EiG Group accumulated decades of experience under the leadership of the CEO.

The Company has grown into a group with five manufacturing facilities, as well as sales subsidiaries.

In 2019, the group achieved \$55 million in annual revenue (excluding outside investments).

Suzhou Walter Electronic

Milestones

- 
- 1968** Walter Electronic was established in Taiwan.
- 1991** Dongguan Walter Electronic was established in Dongguan, Guangdong.
- 2000** Suzhou Walter Electronic was established in Wujiang, Jiangsu.
- 2003** Released Thermal Cutoff series fuse.
- 2006** Comprehensive RoHS integration.
- 2007** Released SMD series fuse and Current Sensing Resistors (Shunt resistors).
- 2011** Released High Performance and Surge withstand. Surface Mount Fuse Nano 6125, with rated voltage up to 250Vac.
- 2014** Juneway Electronic was established in Jiangmen, Guangdong.
- 2015** Established the North America Sales office.
Released Power Fuses for applications such as PV system, industrial, telecom, UPS, battery pack, automotive and instruments.
Released 2020 series, High anti-pulse function and breaking capacity, used in all kinds of lighting equipment and power supply. Product height size is 5mm.
- 2016** Established the Japan Sales office.
Released High Rated Current and Surge withstand Surface Mount Fuse 1032, with rated current up to 60A and rated voltage up to 250Vac.
- 2018** Established Ever-Island Electronics, a dedicated Sales / Distributor Business Unit to serve the general passive components market.
- 2019** Suzhou Walter Electronic received IATF 16949 certification.
Suzhou Walter Electronic was accredited as a Mainland China high-tech enterprise.

Company Structure

Company	Location	Capitalization	Size	Employee	Product			Safety Certifications		
					FUSE	TCO	CSR	ISO 9001	ISO 14001	IATF 16949
Taiwan	Taiwan / Taipei	TWD 5million	800 m ²	50						
Suzhou	Jiangsu / Suzhou	USD 4million	28,000 m ²	420	✓	✓		✓	✓	✓
Jiangmen	Guangdong / Jiangmen	USD 14.55million	10,000 m ²	300	✓		✓	✓	✓	✓

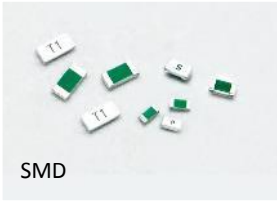

Safety Certifications

Walter's primary objective is to make high-quality products.

This goal led us to obtain agency certifications from ISO9001 , ISO14001 and IATF 16949.
Our company became the first Taiwanese fuse manufacturer to be simultaneously certified
by 8 international safety certification agencies: UK BSI, USA UL, Sweden SEMKO,
Canada CSA, Japan PSE, Germany VDE&TUV, Authoritative China CCC and Korea KC.

Marketing Regions

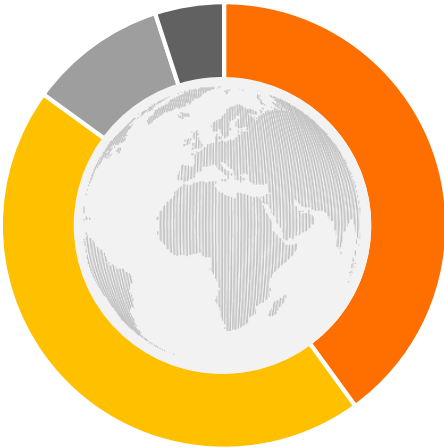

Walter Electronic has over 50 years of manufacturing experience,
With over 800 clients from Mainland China and around the world.
Our persistence in delivering high efficiency along with a sincere
attitude is what makes a trustworthy partner.

Technology

Product Development

All of Walter's products derive from its own research and development capabilities, under its own brand with more than 30 patents.

To enhance product development processes, we recruit Senior Engineers from the Industrial Technology Research Institute of Taiwan, to bolster our product development team.

In recent years, Walter increased interactions and partnerships with reputable electronic technology groups such as Japan, Taiwan, and Mainland China's scholastic organizations.

As a member of EAC, Walter was a frequent invitee to participate in drafting national product standards. In 2004, Walter's Current Sensor product line was founded in cooperation with a Japanese manufacturer that has over 60 years of professional experience in resistor development.

Since thick film resistors were saturated in the current market, our initial goal was to focus development on extremely low resistance products with high precision ($0.5\text{m}\Omega \sim 1\Omega$).

Delivery

Delivery Capability

Delivery lead-time has always been Walter’s greatest strength in the field of fuse manufacturing. We possess the ability to craft our own production machineries in-house without the need to outsource.

Therefore, Walter’s production line always has extra production capacity availability, so we can always accommodate our client’s requests.

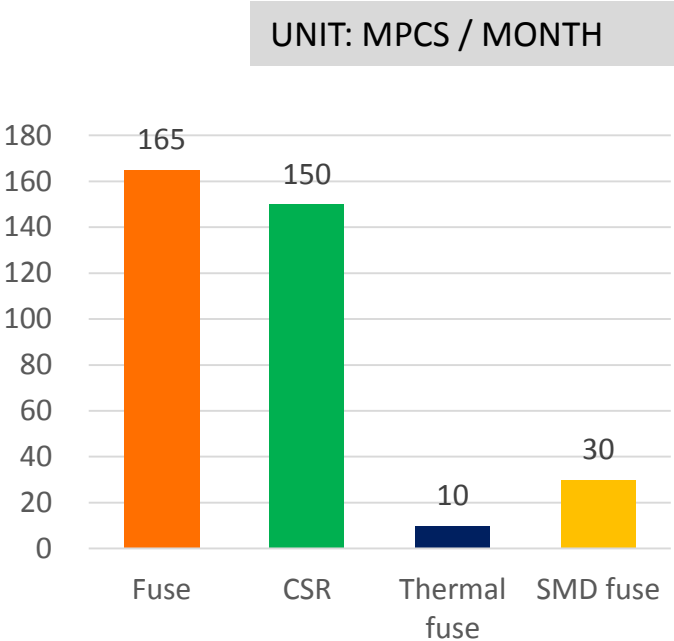

Technical Support

Walter’s technical support team is always available to serve our clients, from product selection to research and design, until satisfaction is met.

Customer Complaint

Will release initial analysis report within 3 working days upon receiving NG sample, then, provide final 8D report within 7 working days.

Customers

In the last few decades, Walter earned a trustworthy reputation and loyalty from our valued customers because of our persistence to deliver reliable services. Here are some of the clients we serve :

Computer Peripherals & Power Supply		Home Appliances	Lighting System	Others
Delta	TTI	Gree	Philips	Hikvision
Liteon	Flextronics	Midea	GE	Yamaha
Chicony	Solum	Hisense	Panasonic	Apollo
Acbel	TDK	Skyworth	Toshiba	BYD
FSP	AIRMATE	AUX	Opple	CCT
Foxconn	T&W	Konka	Topstar	SIL
Leader	Megmeet	Joyoung	Yankon	CRRC
Foxlink	Mean Well	Panasonic	Tospo	Sungrow
Phihong	TiaoBao	Sharp		Chint
Huntkey	TP-Link	Funai		
MOSO	AoHai	Daikin		
Artesyn	Luxshare-ict	CVTE		
	Fuhua	Panasonic
